# MILL TAX CALCULATIONS

## Examples of How to Calculate Your Mill Tax:

- Quarterly gross receipts = \$20,000  
 $\$20,000 \times 0.001 = \$20$  – You pay the minimum tax of \$30.
- Quarterly gross receipts = \$40,000  
 $\$40,000 \times 0.001 = \$40.00$  – You pay the calculated tax of \$40.
- Quarterly gross receipts = \$0 – You do not pay a license fee, but you must return a signed declaration form reporting zero for gross receipts. Renewals – Must still pay the \$35 renewal fee + annual \$4 CA Senate Fee even with reporting \$0 gross receipts.
