- Where a person conducts business at more than one fixed location, each location or place shall be considered a separate business for the purpose of the occupation tax.

Location Specific Certificates

Location of office means any structure or vehicle where a business, profession or occupation is conducted. It does not include a temporary or construction work site, which serves a single customer or project or a vehicle used for sales or delivery by a business or practitioner of a profession.

Home Based Businesses

All home based businesses must complete the “Home Business Affidavit” for “New and “Renewal” applications each year.

Transfer of Certificate Information

No license issued hereunder may be transferred. Any new owner of a business shall apply and make application for a new license prior to commencement of business. Each license granted hereunder shall be subject to revocation for violation of any rule or regulation of this commission now in force or hereafter adopted.

Posting of Certificate

Each person, firm, partnership, corporation, or other entity engaged in any business, trade, profession, occupation, or receiving revenue from any residential or commercial rental property in the city, whether with a location in the city or in the case of an out-of-state business with no location in Georgia exerting substantial efforts within the state pursuant to O.C.G.A. § 48-13-7, shall pay an occupation tax for such business, trade, profession, or occupation; which tax and any applicable registration shall be displayed in a conspicuous place in the place of business, if the taxpayer has a permanent business location in the city. If the taxpayer has no permanent business location in the city, such business tax registration shall be shown to the city clerk or his deputies or to any police officer or code enforcement officer of the city upon request.

Penalty and Interest

All certificates shall be assessed a penalty in the amount of ten percent (10%), plus 1% interest on the amount owed for each calendar month or portion thereof for taxpayers who fail to file their renewal on or before April 1st, or fail to register and obtain a business certificate.

Type of Certificate

The business registration of each business operated in the City shall identify the dominant line of business that the business conducts. Dominant line means the type of business, within a multiple-line business, from which the greatest amount of income is derived.

Professional Practitioners

(a) Practitioners of professions as described in O.C.G.A. § 48-13-9(c) (1)—(18) shall elect as their entire occupation tax one of the following:

(1) The occupation tax based on gross receipts combined with profitability ratios as set forth in section 22-34.

(2) A tax of \$300.00 for calendar year 1999, and \$400.00 for calendar year 2000 and thereafter, unless otherwise amended by a future act of City Council, shall be required per practitioner who is licensed to provide the service, such tax to be paid at the practitioner's office or location; however, a practitioner paying according to this subsection shall not be required to provide information to the local government relating to the gross receipts of the business or practitioner. The per-practitioner fee applies to each person in the business who qualifies as a practitioner under the state's regulatory guidelines and framework.

(b) This election is to be made on an annual basis and must be done by January 1st of each year.

Zoning

If a business intends to maintain a physical location within the municipality, there are normally zoning and building code approvals required prior to the issuance of a license. In certain instances, a business may simply be required to register with the municipality to create a mechanism for the reporting and payment of any tax liabilities. Contact the municipality for any zoning, building code and/or tax liability requirements by calling (912) 756-3641. The completion and submission of the form does not guarantee the approval or subsequent issuance of a license certificate to do business. Any prerequisites for a particular type and location of the business must be satisfied prior to licensing.

Issuance of a business license by RDS does not permit business operation unless the business is properly zoned and/or in compliance with all applicable laws/rules and meet all required certifications.
