# GENERAL INFORMATION/FAQS

## Certification Requirements

All municipalities are required to obtain a copy of each individual/entity's board certifications and/or permits prior to issuance of a municipal business license. For a list of types of licenses that require board certification, [www.avenuinsights.com](http://www.avenuinsights.com). Please provide a copy of your certification/permit along with your application (if applicable).

Issuance of a business license by Avenu does not permit business operation unless the business is properly zoned and/or in compliance with all applicable laws/rules and meet all required certifications.

## Gross Receipts, Definition Of

If the business is physically located in the incorporated city limits or police jurisdiction, the business must report ALL gross receipts for the business conducted in the State of Alabama. They can deduct out-of-state sales. If the business is a service-based business and not physically located in the incorporated city limits or police jurisdiction then they must report the gross receipts for that jurisdiction only.

The measure of any and all receipts of a business from whatever source derived, to the maximum extent permitted by applicable laws and constitutional provisions, is to be used in calculating the amount due for a business license. Provided, however, that:

- A. Gross receipts shall not include any of the following taxes collected by the business on behalf of any taxing jurisdiction or the federal government: All taxes which are imposed on the ultimate consumer, collected by the taxpayer and remitted by or on behalf of the taxpayer to the taxing authority, whether state, local or federal, including utility gross receipts levied pursuant to Article 3, Chapter 21, Title 40; license taxes levied pursuant to Article 2, Chapter 21, Title 40; or reimbursements to professional employer organizations of federal, state or local payroll taxes or unemployment insurance contributions; but no other deductions or exclusions from gross receipts shall be allowed except as provided in this article.
- B. A different basis for calculating the business license may be used by the municipality with respect to certain categories of taxpayers as prescribed in Section 11-51-90.2.
- C. For a utility or other entity described in Section 11-51-129, gross receipts shall be limited to the gross receipts derived from the retail furnishing of utility services within the municipality during the preceding year that are taxed under Article 3, Chapter 21, Title 40, except that nothing herein shall affect any existing contract or agreement between a municipality and a utility or other entity. The gross receipts derived from the furnishing of utility services shall not be subject to further business license taxation by the municipality.
- D. Gross receipts shall not include dividends or other distributions received by a corporation, or proceeds from borrowing, the sale of a capital asset, the repayment of the principal portion of a loan, the issuance of stock or other equity investments, or capital contributions, or the undistributed earnings of subsidiary entities.

## Location Specific, Definition

The up-to-date physical location must be provided on all renewals in order to prevent delays in the issuance of the license.

a. For each place at which any business is carried on, a separate license shall be paid, and any person desiring to engage in any business for which a license is required shall designate the place at which business is carried on, and the license to be issued shall designate such place, and such license shall authorize the carrying on of such business only at the place designated.

b. Every person dealing in two or more of the articles, or engaging in two or more of the businesses, vocations, occupations or professions scheduled herein, shall take out and pay for a license for each line of business.

c. A taxpayer subject to the license authorized by this ordinance that is engaged in business in other municipalities, may account for its gross receipts so that the part of its gross receipts attributable to its branch offices will not be subject to the business license imposed by this ordinance. To establish a bona fide branch office, the taxpayer must demonstrate proof of all the following criteria:

(i) The taxpayer must demonstrate the continuing existence of an actual facility located outside the police jurisdiction in which its principal business office is located, such as a retail store, outlet, business office, showroom, or warehouse, to which employees and/or independent contractors are assigned or located during regular normal business hours.

(ii) The taxpayer must maintain books and records, which reasonably indicate a segregation or allocation of the taxpayer's gross receipts to the particular facility or facilities.

(iii) The taxpayer must provide proof that separate telephone listings, signs, and other indications of its separate activity are in existence.

(iv) Billing and/or collection activities relating to the business conducted at the branch office or offices are performed by an employee or other representative, of the taxpayer who has such responsibility for the branch office.

(v) All business claimed by a branch office or offices must be conducted by and through said office or offices.

(vi) The taxpayer must supply proof that all applicable business licenses with respect to the branch office or offices have been issued.

d. Nothing herein shall be construed as exempting businesses from payment of a license on the basis of a lack of physical location.

**PROPER ZONING OF BUSINESS ADDRESS REQUIRED.** Each designated business location must be approved by the City of Birmingham Department of Planning, Engineering and Permits, pursuant to the requirements of Ordinance No. 90-130, as amended, before a City business license can be issued. In the event that your business relocates from one address within the City to another address within the City, the new business location must be approved before a City business license can be issued or renewed.

**HOME OCCUPATIONS/HOME OFFICES.** Each applicant for a business license who plans to operate his or her business from a residence within the City of Birmingham must execute a "Home Occupation Certificate of Agreement" through the Department of Planning, Engineering and Permits before a City business license can be issued. A copy of the properly executed agreement must be presented to the Revenue Division at the time of making application for licensing. In the event that previously approved home office relocates from one address within the City to another address within the City, the new home office business location must be approved before a City business license can be issued or renewed. occupations/home offices be made **in person** at the office of the Tax and License Administration (Revenue) Division located at 710 North 20th Street, Room TL-100, City Hall, Birmingham, AL 35203.

**ISSUANCE OF YOUR CITY TAXPAYER IDENTIFICATION NUMBER.** Once your fully completed Business License Application form is received by the Finance Department, your location is properly zoned, and you have submitted all required documentation with your application form, you will be issued a City of Birmingham TAXPAYER IDENTIFICATION NUMBER. This number is to be used to report all City tax and license liabilities to the City of Birmingham Finance Department. If you have more than one business location, it is assumed that you will file applicable consolidated returns for Sales Tax, Occupational Tax, Sellers or Consumers Use Tax, and Lease Tax. Generally, however, each business location requires the purchase of a separate business license.

**GROSS RECEIPTS LICENSES AND NINETY (90) DAY AFFIDAVITS.** All gross receipts based license amounts are calculated on twelve (12) months of actual or annualized gross receipts. New gross-receipts based businesses are generally issued a business license in a **minimum** amount at the time of application. After the first ninety (90) days of business, a sworn affidavit attesting to the gross receipts of the business for the first ninety days must be executed. The gross receipts information will be annualized (projected for the twelve month period), and will provide the basis for calculating the actual business license liability for the current year and, in some instances, for the second year of operation. Any applicable business license amounts previously paid will be deducted from the actual business license liability, and you will be billed for any balance due.

**CHANGES OF OWNERSHIP; MERGER; ACQUISITION OF AN EXISTING BUSINESS.** If you are currently making application for a City of Birmingham business license or new City of Birmingham Taxpayer Identification Number as a result of the sale or purchase of a business, a change of ownership, merger, or other acquisition of a business previously registered to do business in the City of Birmingham, you **must** provide information relating to the sale, purchase, merger, change of ownership, or acquisition in the relevant section on the Business License Application form.

**NO PRORATION OF LICENSE RESULTING FROM ABANDONMENT OR DISCONTINUANCE OF BUSINESS.** There is no provision for the proration of any business license taxes as a result of the abandonment or discontinuance of a business. **LICENSE TO BE EXHIBITED, DISPLAYED, OR POSTED.** Each license issued by the Finance Department shall be posted in a conspicuous place where such business or occupation is carried on, and the holder of such license shall immediately show such license to the department's designated agent, or to any police officer of the City upon being so requested by such agent or officer. Failure to exhibit, display or post such license as required by City ordinance shall be unlawful. Where a license decal or sticker is required to be affixed to any machine or vehicle, it shall also be the duty of each such licensee to attach and to keep securely attached such decal or sticker to such vehicle or machine in a conspicuous place.

**NON-PROFIT ORGANIZATIONS.** Non-profit organizations which have been granted exemptions from business license taxation by specific Acts of the Alabama Legislature are exempt from City license taxes. The legislative act or a copy thereof must be submitted to the Tax and License Administration (Revenue) Division in order to be eligible for such exemption. Non-profit organizations are **NOT** automatically exempt from the provisions of the City of Birmingham Business License Code by virtue of having qualified for non-profit status on the federal income tax level under the provisions of USC 501(c)(3).

**REQUEST FOR RULING ON DETERMINATION OF TAXATION.** Any taxpayer or applicant may request a ruling on the determination of whether amounts of gross sales, or gross receipts of his/her business are subject to the license tax, or are not to be used as a measure of the license taxes due and payable as levied by the Business License Code of the City of Birmingham. Such requests shall be made in writing to the Finance Department, and shall contain all pertinent facts relating to the item(s) in question.

**CONFIDENTIALITY OF APPLICATIONS AND TAX RETURNS.** Information supplied to the department in the form of applications and tax returns is subject to the confidentiality provisions outlined in Ordinance No. 97-183, "The Business License Code of the City of Birmingham", Article II, Section 14.

## Police Jurisdiction (PJ), Definition and Rate Of

The City of Birmingham does not enforce a Police Jurisdiction currently.

## Penalty and Interest, Rate Of

Licenses are due (January 1<sup>st</sup>) and will increase by a 15% penalty if not paid on or before February 15th plus interest at the current state interest rate. An additional 15% penalty will be due March 16th plus interest at the current state interest rate per month thereafter. Alcohol licenses are considered delinquent if not paid on or before January 15th and accrue a 15% penalty if not timely paid.

## Posting of License

Every license shall be posted in a conspicuous place, where said business, trade or occupation is carried on, and the holder of the license shall immediately show same to the designee of the municipality upon being requested to do so.

## Transfer of License Information

No license shall be transferred except with the consent of the council or other governing body of the municipality or of the director of finance or other chief revenue officer or his or her designee, and no license shall be transferred to reflect a physical change of address of the taxpayer within the municipality more than once during a license year and never from one taxpayer to another. Provided that a mere change in the name or ownership of a taxpayer that is a corporation, partnership, limited liability company or other form of legal entity now or hereafter recognized by the laws of Alabama shall not constitute a transfer for purposes of this chapter, unless (1) the change requires the taxpayer to obtain a new federal employer identification number or Department of Revenue taxpayer identification number or (2), in the discretion of the municipality, the subject license is one for the sale of alcoholic beverages. Nothing in this section shall prohibit a municipality from requiring a new business license application and approval for an alcoholic beverage license.

## Type of License

Gross-based licenses require the gross receipts to be provided. See Gross Receipts definition for more information. Unit-based licenses require the number of units (employees, vehicles, rooms, agents, days, etc.) to be provided. Flat-based fees have the rates indicated. Failure to provide the required information will delay the issuance of the license.

## Zoning

If a business intends to maintain a physical location within the municipality, there are normally zoning and building code approvals required prior to the issuance of a license. In certain instances, a business may simply be required to register with the municipality to create a mechanism for the reporting and payment of any tax liabilities. Contact the municipality for any zoning, building code and/or tax liability requirements. The completion and submission of the form does not guarantee the approval or subsequent issuance of a license to do business. Any prerequisites for a particular type and location of the business must be satisfied prior to licensing.

## Questions?

All questions regarding the business license renewal process should be directed to Avenu.

The North American Industrial Classification System (NAICS) identification (sector/sub-sector) numbers are required as a part of the periodic reporting requirements for every business. For municipal business license purposes, each taxpayer must be minimally classified as required by State Code Sec. 11-51-90B. The descriptions listed below each NAICS code incorporate examples of each category; however, these examples are not all-inclusive. A business is classified and licensed based upon the business activity or activities which it conducts within the City. Each business will be placed in the NAICS sector/subsector which best matches its activity or activities and shall pay a license tax based upon the corresponding schedule assigned to its description unless otherwise specified. The City may assign additional digits of each NAICS code for reporting purposes and proper administration of this ordinance.

In the event a person who is required to purchase a license is engaged in activity that does not meet the particular criteria of any classifications in this Section 1, then the Finance Department shall assign such person to the classification provided in this Section 1 that is the most similar to the activity in which the person is engaged. The procedure and criteria for such assignment shall be as follows:

1. The proper classification for the activity in which the person is engaged shall be identified.
2. Some schedules may use the first three digits of the NAICS classification that best describes the activity may be used to identify a classification in this Section 1 that has the same first three NAICS digits, and the person shall be assigned to that classification in Section 1. Other schedules may use the first four digits of the NAICS classification that best describes the activity may be used to identify a classification in this Section 1 that has the same first four NAICS digits, and the person shall be assigned to that classification in Section 1.
  - i. In the event this procedure results in more than one applicable classification from this Section 1, and if the payment schedules for the applicable classifications are the same, then the Finance Department may use its discretion in making the assignment.
  - ii. In the event this procedure results in more than one applicable classification from this Section 1, and if the payment schedules for the applicable classifications are different, then the revenue department shall assign the person to the classification with the highest applicable payment schedule.
3. In the event the person cannot be classified using this procedure, then the person shall be assigned the license classification 999, Unclassified.

The index in this section is a tool for classification, not a limitation on businesses subject to a license tax. The department shall determine the proper class for a business according to the applicable NAICS.

Nothing herein shall prohibit a municipality from requiring by ordinance the purchase of a decal by the taxpayer for each delivery vehicle making deliveries within the municipality or its police jurisdiction. The charge for such decal shall not exceed the municipality's actual cost of the decal.

(2) Notwithstanding any other provision of law, a municipality may charge a taxpayer an issuance fee for a business delivery license not to exceed ten dollars (\$10).

(b) As used in this section, a delivery license shall mean a fixed rate business license issued by a municipality for the limited privilege of delivering and requisite set-up and installation, by the taxpayer's employees or agents, of the taxpayer's own merchandise in that municipality, by means of delivery vehicles owned, leased, or contracted by the taxpayer; provided that the gross receipts derived from the sale and any requisite set-up or installation of all merchandise so delivered into the municipality shall not exceed seventy-five thousand dollars (\$75,000) during the license year, and any set-up or installation shall relate only to

- (1) that required by the contract between the taxpayer and the customer or as may be required by state or local law, and
- (2) the merchandise so delivered.

Mere delivery of the taxpayer's merchandise by common carrier shall not allow the taxing jurisdiction to assess a business license tax or a delivery license tax against the taxpayer, but the gross receipts derived from any sale and delivery accomplished by means of a common carrier shall be counted against the seventy-five thousand dollar (\$75,000) limitation described in the preceding sentence if the taxpayer also during the same license year sells and delivers into the taxing jurisdiction using a delivery vehicle other than a common carrier. Provided that the dollar limitation prescribed above shall be increased, but not decreased, every five years under the standards prescribed by Section 11-51-90 with respect to the uniform license issuance fee and may be increased by a municipality at any time, up to one hundred fifty thousand dollars (\$150,000), by adoption of an ordinance. (d) Notwithstanding Section 11-51-90.2, the delivery license shall be calculated in arrears, based on the related gross receipts during the preceding license year.

(e) The purchase of a delivery license or the exemption from the purchase of a delivery license pursuant to subsection (c) shall not, in and of itself, establish nexus between the taxpayer and the municipality for purposes of the taxes levied by or under the authority of Title 40 or other provisions of this title, nor does the purchase of a delivery license, in and of itself, establish that nexus does not exist between the taxpayer and the municipality.

(f) If at any time during the current license year the taxpayer fails to meet the criteria specified in subsections (a) and (b), then within 45 days after any of the criteria have been violated or exceeded, the taxpayer shall purchase a business delivery license or other appropriate license from the municipality and may be subject to a penalty not to exceed ten dollars (\$10).
